<b>Description</b>	<p>Bridge is a card game enjoyed the world over by people from 8 to 80 or in a lot of cases much older.</p> <p>North plays with South and East plays with West and the aim of the game is to make as many tricks as possible between the partnership.</p> <p>Bridge is fun, which is one of the many reasons to learn the game. It offers the suspense of poker, the cerebral qualities of chess and the excitement of athletic sports, all in a social setting where you're a participant, not just a spectator.</p> <p>Bridge is social. A game of bridge involves communication and cooperation with your partner and interaction with the opponents.</p> <p>Bridge stimulates the brain. Bridge is one of the best ways to practise "use it or lose it "</p> <p>Bridge is a LIFELONG pursuit. It takes only a little knowledge to begin playing and enjoying bridge. But no matter how many years you play, the learning process will never end.</p> <p>Bridge is a bargain. All you need to play bridge is a deck of cards and three other people to play with.</p> <p>All of the above is what keeps people coming back to the bridge table, and is why bridge will always be the world's most popular card game.</p>
