

CREATIVE MEDIA

The aim of the course is to provide students with the necessary skills to think imaginatively and bring their ideas to life through a creative and artistic approach. It is designed to afford students the opportunity to become familiar with the various fields of journalism, digital photography, games studies, 3D Modelling and digital image design. Successful candidates will acquire a broad range of skills, which will qualify them to either progress to higher education or to work in a range of digital media industries.
